

July 1, 2026

To Patients of Dominion Orthopaedic Clinic:

We write to inform you of a change in the practice of John I. Foster, III, MD effective September 1, 2026.

After more than 30 years of providing Orthopaedic surgery care, Dr. Foster will transition his practice exclusively to surgical treatment, formally requested independent medical evaluations, and off-site treatment of injured workers. ***If you are already scheduled for surgery with Dr. Foster, this change will not affect your treatment or surgery schedule.***

Patients treated under private or commercial insurance plans, or those who are self-pay, must select a new Orthopaedic surgeon to continue their care after September 1, 2026. Atlanta offers extensive options for excellent Orthopaedic care. For patients who wish to continue their care in a nearby location, we recommend contacting:

The custodian charges a fee for search and production of records in accordance with the fee schedule set by the State of Georgia. Detailed instructions for requesting records through the custodian after October 1 will be sent to you at a later date.

It has truly been our privilege to provide you with orthopaedic care over the years. We will miss the many long-term relationships we have established with our patients, and we wish you only the best of health in the years to come.
